### Product Description

## ODES UTV WorkCross 650-3

Multimedia central control screen with multi-functional applications such as Bluetooth connection, offline navigation, and radio. Make your riding beyond the ordinary mode.

#### REMARKABLE VERSATILITY

Screen serving as the core control hub for multimedia, featuring many applications with multiple functions, such as a Bluetooth connection, offline navigation, and radio(optional). Transcend the standard way of transportation with your riding adventure.

#### OPTIMIZED DESIGNING

The door is equipped with a half-door state and a fully-closed state. The windshield glass lift adopts two modes of manual and electric control. Fully consider various situations when driving.

#### INTEGRATED REAR AXLE ENGINE DESIGN

The design of the integrated rear axle engine enhances the vehicle's reliability and durability due to its simple structure and high strength. Additionally, this design improves the utilization rate of engine power, making the vehicle more powerful compared to others with the same level of engine displacement.
