

All Steel Impeller More durable than the plastic impellers used on competitive products. Our impeller is covered with a

LIFETIME WARRANTY.

Accessories Add Versatility Our Vacuum Hose lets you get at yard waste in places you can't drive your mower. And the Mulch Discharger allows you to broadcast all that debris right where you want it.

Assembled in the USA

Dr Power Leaf and Lawn Vacuum PILOT 200

Optimal 3" Hose Our 8" hoses offer the ideal balance—narrower hoses clog too frequently, and wider ones lose compressive and suction power. We tested extensively and found 8" to be the optimal diameter.

Modular Design Our collector top removes and folds up, and the engine rolls away on its own built-in trolley. The result: simple, space-efficient storage and year-round versatility.

The PILOT 200 model has the same vacuum power and performance of our step-up models, but with a simplified collector design. It unloads with an easy, 2-step action, and the underlying frame doubles as a flatbed trailer. The result is great performance at a terrific price!

SKU:LL31227DMN

Reduce a Mountain of Leaves Our Shark-Teeth Impeller, in combination with the action of your lawn mowing blade, reduces your leaves to a fine mulch during collection. The result is rich, organic material that you can return to your garden or compost heap.

Price: \$1799.99

Categories: [DR Power](#)

Flatbed Utility Trailer With the upper collector and power unit detached, the PILOT's underlying flatbed makes a great, 400-pound capacity trailer. Pin hitch it to your riding mower (or ATV) and use it for all kinds of hauling chores. It's perfect for transporting stackable or tie-down items.

PILOT 200 Model

Huge Capacity The PILOT model holds up to 27 cubic feet (200 gallons). The high-speed impeller reduces the volume of leaves to a fraction of their original bulk. So you'll be able to collect huge amounts of leaves and debris before you have to stop and unload.

The 200-gallon collector can be fully unloaded in two easy steps: 1) simply unbuckle the closures on the back, and 2) Big Wheels, easy Rolling! Our 14" diameter wheels are bigger than competitive products and create a smoother roll. You can convert to dual wheel setup with our Wheel Upgrade Kit.

Trailer Jack Stand Heavy-duty Trailer Jack Stand for moving the machine easily when not in use. Adapts to pin hitch height of 8" to 15". Stand lifts out of the way during operation. 4" diameter wheel. (Optional accessory).

Collector, Shred and Dump!

The PILOT's collector is closed by oversized buckles that are easy to grasp, even with gloves on. The collector's vertical "doors" can be held open as they reduce the volume of leaves and other materials it collects. It starts with your mower deck which provides lift to pull lawn debris up into the spinning blade. Then the partially mulched material is channeled into the rugged steel impeller which further reduces it before passing it in to the collector.

It's not JUST for Leaves!

In spring the DR is great for cleaning up the wind- and storm-borne debris that collects on your lawn. During the summer, it makes a terrific high-capacity bagger that will leave your lawn spotless with very little extra effort on your part. And you can use the utility cart any time of year for hundreds of hauling jobs.

Get More Done with Accessories

The Optional Vac Hose provides 20 feet of extra reach to clean up areas you can't drive over. Use it to vacuum out flower beds, window wells, hedges, or any other remote areas. Our Mulch Discharger lets you expel collected material and place it right where you want it—in a compost pile or into the woods.

Product Summary

- 200 gallon capacity (27 cu. ft.)
- Single point hitch
- Optional jack stand available
- DR OHV Engine; 6.6 HP (9.59 ft-lbs gross torque*)
- Manual-starting
- Weight: 230 lbs

Warranty Coverage

- Machine: 2 years residential; 90 days commercial
- Engine: 2 years residential; 1 year commercial
