

LIFETIME WARRANTY.

Accessories Add Versatility The optional Vacuum Hose lets you get at yard waste in places you can't drive your mower. And the Mulch Discharger allows you to broadcast all that debris right where you want it. (Optional accessories).

DR Power Leaf and Lawn Vacuum PRO XL330

Optimal 8" Hose The 8" hoses are ideal for performance. Narrower hoses clog too frequently, and wider ones lose compression and suction power. Extensive testing determined that 8" is the optimal diameter.

Assembled in the USA Assembled in the USA using foreign and domestic parts.

Modern Design The collector top removes and folds up, and the engine rolls away on its own built-in trolley. The result: simple, space-efficient storage and year-round versatility.

Reduce a Mountain of Leaves Our Shark-Teeth Impeller, in combination with the action of your lawn mowing blade, reduces your leaves to a fine mulch during collection. The result is rich, organic material that you can return to your garden or compost heap.

Price: \$3399.99

Utility Cart With the upper collector and power unit detached, the cart bed makes a great all-purpose utility trailer. Pin hitch it to your riding mower (or ATV) and use it for landscaping and hauling chores. The PRO XL330 has a 800 pound capacity.

Product Description

The PRO XL330 is equipped with a high quality, easy-starting DR OHV engine. With 11.7 HP and 19.6 ft-lbs gross torque (per SAE J1940), it has the power you need to create a powerful suction force and propel the fully loaded vac.

Huge Capacity The PRO XL330 holds up to 44 cubic feet (330 gallons). The high-speed impeller reduces the volume of leaves to a fraction of their original bulk. So you'll be able to collect huge amounts of leaves and debris before you have to stop and unload. The powerful 11.7 HP (16.90 ft-lbs gross torque) OHV engine, in combination with the massive Shark-Teeth impeller, creates tremendous airflow that virtually eliminates clogs and leaves your lawn beautifully free of debris.

Big Wheels Roll Easily! 14" diameter wheels are bigger than competitive products and create a smoother roll. You can convert to dual wheel setup with our Wheel Upgrade Kit.

Collect, Shred and Dump! Using the DR Leaf and Lawn Vacuum drastically reduces the volume of leaves and other materials it collects. It starts with your mower deck which provides lift to pull lawn debris up into the spinning blade. Then the partially mulched material is channeled into our Shark-Teeth Steel impeller which further reduces it before passing it in to the collector. **Trailer Jack Stand Heavy-duty Trailer Jack Stand**, for moving the machine easily when not in use. Adapts to pin hitch heights of 8" to 15". Stand fits out of the way during operation. 4" diameter wheel. (Optional accessory).

It's not JUST for Leaves!

In spring the DR is great for cleaning up the wind- and storm-borne debris that collects on your lawn. During the summer, it makes a terrific high-capacity bagger that will leave your lawn spotless with very little extra effort on your part. And you can use the utility cart any time of year for hundreds of hauling jobs.

Get More Done with Accessories

The Optional Vac Hose provides 20 feet of extra reach to clean up areas you can't drive over. Use it to vacuum out flower beds, window wells, hedges, or any other remote areas. Our Mulch Discharger lets you expel collected material and place it right where you want it—in a compost pile or into the woods. See all accessories here.

Product Summary

- Collector Capacity: 330 gallons (44 cu. ft.)
 - Trailer Capacity: 800 lbs.
 - Single Point Hitch
 - Jack stand included
 - DR OHV Engine: 11.7 HP (389cc)
 - Electric-Starting
 - EPA Certified
 - Weight: 313 lbs
-
- Machine: 2 years residential; 90 days commercial
 - Engine: 2 years residential; 1 year commercial
