SKU:PPZ5060S000N

Price: \$7499.99

2.5 kWh Battery Pack The ZT5E is powered with one, two, or three 48V batteries (sold separately). Each one is 2.5 kWh, meaning you can have up to 7.5 kWh. The power for mowing and self-propulsion is the same regardless of how many batteries are installed—the difference is in runtime. Recharge overnight in the mower.

Categories: DR Power

Battery Dock Each battery seats securely under the rear hood, in its own port, ensuring optimal contact with receiver.

Product Description

ROPS In the unlikely event of a roll over (Roll Over Protection Structure)

Mow Up to 5 Acres per Charge!

With a 60" mowing width and numerous professional features, the DR ZT5E Zero-Turn is your ticket to virtually maintenance-free lawn care. No more gas fumes, tune-ups, or messy refueling! Start out with a full charge and you can mow for up to 1.75 hours without stopping—enough to mow as much as 5 ACRES. Recharge overnight (110V Charger included) and you're ready to go again the next day.

Features

Independent Wheel Drives The DR ZT5E uses a HydroGear beltless drivetrain with brushless electric motors to provide precise zero-turn performance.

Powered by eSeries Battery Packs

Lap Bar Steering Commercial style steering bars are adjustable for rider comfort. Dampened for steady, straight-line mowing. Action becomes intuitive with just a little practice.

Interactive Touchscreen Has controls for blade speed and drive speed. Also displays battery charge level, operation status, hour meter, and service notifications.
