Product Description

Bad Boy Revolt SD 34" Kohler Stand-On Mower - BRV34KT722

STAND UP FOR YOUR YARD

It's time to stand up for your yard. The Revolt SD is our newest stand-on mower designed to give homeowners revolutionary power and performance.

Features:

- **THE REVOLT HAS GONE RESIDENTIAL:** We've modified the Revolt to make the perfect stand-on mower for any homeowner. It's a better value for smaller properties with same premium quality you've come to expect from Bad Boy.
- **JUST THE RIGHT SIZE:** The Revolt SD is available in 34" and 42" deck sizes that fit through a gate with no problems. It's perfect for tight fits and a cleaner cut, and the smaller sizes make it even easier to store at your home.
- **COMFORT YOU CAN STAND BEHIND:** The full suspension operator platform gives you a smoother ride with less fatigue and maximum comfort. It comes with a Quick Remove Operator Pad offers the support you need while still maintaining easy access for maintenance and cleaning.
- **STEP UP TO A STRONGER DECK:** If you want a super-strong, zero-turn mower, step up to the Revolt SD. With a deck made from 7-gauge American steel, and equipped with a 3/8" leading edge for additional strength, this is the heaviest-built deck in its class. It even has a deeper 4.5" shell for maximum discharge, airflow and cut quality. Need to adjust the height? Use the side-mount deck lift to adjust cut height in seconds. Plus, patented Dual Deck Support Isolators, paired with deck wear pads, minimize damage from any side impact. Bad Boy Revolt SD is the stand-on residential mower deck that delivers.
- **EXCLUSIVE REAPER® TIRES:** This is the residential stand-on mower that stands out from the competition. Dual High-Performance Hydro-Gear Integrated Drive Systems deliver reliable, self-contained power and performance. You need tires that can keep up. That's why we equipped the Revolt SD with exclusive Reaper® tires. You'll enjoy better hillside traction, stability and overall control. Now you can turn on a dime or handle any terrain. Bad Boy builds quality from the ground up.
- **UNBELIEVABLY SMOOTH:** Everything about the Revolt SD is smooth, comfortable and easy to use. It starts with our patented, full suspension operator platform that gives you a smoother ride with less fatigue and maximum comfort. It's mounted on an inset I-Beam front rail and features 3/8" steel front forks and 3 1/2" trail for smooth directional changes. But there's more. A one-touch, hand-operated cut height control makes on-the-fly adjustments quick and easy. And the quick remove operator pad makes it unbelievably easy to access components for routine maintenance and easy cleaning.
- **MADE IN THE HEARTLAND:** Finally, a Stand-On zero-turn lawn mower that homeowners can get their hands and wallet around. The Revolt SD is proudly built in the USA at our Batesville, Arkansas headquarters. Yes, it's more compact than most Stand-Ons. The shorter length allows for better in and around cutting. It's the perfect mower for tight fits and a cleaner cut, and it's available in gate-entering 34" and 42" deck width sizes. Even though it's loaded with features like 3-position Speed Control, it's also one of the most affordable Stand-On options on the market. And since it's a Bad Boy, it's built to stand up to anything else out there.
